

Music Together® In School

Curriculum and Support

Through over 30 years of ongoing research and development, Music Together® has carefully selected a mix of resources to provide a developmentally appropriate early childhood music and movement curriculum supporting children’s development in both music and other key developmental domains. Parents and educators find the curriculum accessible, regardless of their own musical ability; and school administrators appreciate the abundant support, which includes new materials for each year in our 3-year rotation of year-long song collections.

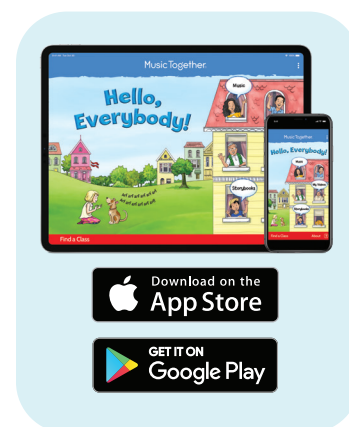

For Schools

- High-quality, well-supported music curriculum that teachers love and find successful in the classroom
- An innovative curriculum that helps children flourish by supporting their music development and learning in the key developmental domains both at school and at home
- A highly trained music specialist, skilled at developmentally appropriate practice in music education
- A platform for engaging parents in their child’s education and building community bonds between home and school
- Discount for schools serving families experiencing situational, chronic, or systemic risk
- Listing on Music Together’s international Class Locator and marketing use of the Music Together® In School logo—to help parents find the brand they love

For Classrooms / Classroom Teachers

For each song collection, participating classrooms receive:

- Audio recordings (CD and digital downloads)
- A family songbook to use with the children, or for the children’s music-making area
- Welcome letter explaining the curriculum and the important role the classroom teacher plays in the children’s music development
- Access to the online Classroom Teacher Portal filled with activity suggestions and helpful tips on using music in the classroom
- Access to the *Hello Everybody* app where music can be downloaded or streamed, and full music notation and other content for families can be accessed
- Professional development through personalized mentoring and in-service workshops
- Spanish translations of family materials available upon request

For Music Together® Specialists

For each song collection, Music Together Specialists receive:

- Audio recordings (CD and digital downloads), including teacher-mix audio recordings with select extended and instrumental tracks
- Teaching guide full of developmentally appropriate early childhood music-making activities and lesson planning support
- Access to the Music Together app for teachers where specialists can lesson plan and access all teaching videos
- Family songbook to use in class with the children
- Activity song cards to use in class with the children
- Online teaching resources, including lesson plans, sample classroom footage, teaching videos, Spanish translations of home materials, additional activities to send home to families, and much more
- Access to the *Hello Everybody* app where music can be downloaded or streamed, and full music notation and other content for families can be accessed
- Access to the online Classroom Teacher Portal

Additional support available to Specialists:

- Continuous access to the Music Together In School online training
- Support for leading classroom teacher in-services
- Access to mentoring from Music Together headquarters, including support from a board-certified music therapist in the Music Together Special Needs Services Department.
- Online Social Network to share questions, ideas, and information with other providers and specialists

For Families

For each song collection, every family receives:

- Audio recordings (digital downloads)
- A colorfully illustrated family songbook with activity ideas
- Information about the benefits of the Music Together In School curriculum
- Access to the *Hello Everybody* app where music can be downloaded or streamed, and full music notation and additional educational content can be accessed

Music Learning Supports All Learning®

This carefully developed blend of curriculum and support is the most comprehensive in the field and inspires not only music and movement in school and at home but also growth across developmental domains. Why not see for yourself how the power of music can transform your classrooms, your school community, and the lives of children and their families.
